

# 7. Usability Testing & Analysis

## 7.1 Objective

The objective of this usability testing was to evaluate the effectiveness, efficiency, and user satisfaction of the redesigned College Results Portal. The testing was conducted to identify usability issues, gather user feedback, and determine areas for further improvement.

## 7.2 Test Participants

A total of five participants were selected to evaluate the prototype.

| Participant | User Type      |
|-------------|----------------|
| Sushanth    | Student        |
| Jagadeesh   | Student        |
| Triveni     | Student        |
| Kishore     | Parent         |
| Raj         | Faculty Member |

## 7.3 Test Scenarios

Participants were asked to perform the following tasks using the redesigned prototype:

1. Search for semester examination results.
2. Access the login page.
3. Locate faculty information.
4. View the student achievements section.
5. Find contact information available on the portal.

## 7.4 Observations

| Participant | Task Completion | Time Taken | Observation                               |
|-------------|-----------------|------------|-------------------------------------------|
| P1          | Successful      | 18 sec     | Easily located results dashboard          |
| P2          | Successful      | 22 sec     | Navigation was clear and understandable   |
| P3          | Successful      | 25 sec     | Login option required more visibility     |
| P4          | Successful      | 28 sec     | Achievements section took additional time |

| Participant | Task Completion | Time Taken | Observation                          |
|-------------|-----------------|------------|--------------------------------------|
| P5          | Successful      | 20 sec     | Faculty directory was easy to access |

## 7.5 User Feedback

The following feedback was collected from participants:

- The redesigned interface is clean and user-friendly.
- Results can be accessed more easily compared to the previous design.
- Login functionality improves privacy and security.
- Faculty information is well organized.
- Navigation is simpler and more intuitive.
- Student achievements section can be highlighted more prominently.

## 7.6 Usability Metrics

### Task Success Rate

Total Tasks Assigned = 25

Tasks Successfully Completed = 24

Task Success Rate =  $(24/25) \times 100 = 96\%$

### Average Completion Time

Average time required to complete assigned tasks = 22.6 seconds

### User Satisfaction Score

Average user satisfaction rating = 4.5/5

## 7.7 Findings

The usability testing revealed several positive outcomes:

1. Users were able to complete most tasks successfully without assistance.
2. The redesigned dashboard improved accessibility to examination results.
3. Login-based result access enhanced user privacy and security.
4. Faculty directory information was easy to locate.
5. Mobile-friendly layouts improved accessibility across devices.

## 7.8 Design Improvement Suggestions

Based on participant feedback, the following improvements are recommended:

1. Increase the visibility of the Login button on the homepage.
2. Highlight the Student Achievements section using banners or featured cards.
3. Improve search filters for faster result retrieval.

4. Add quick-access navigation shortcuts for frequently used features.
5. Enhance mobile responsiveness for smaller screen sizes.

## **7.9 Conclusion**

The usability testing demonstrated that the redesigned College Results Portal provides a significantly improved user experience compared to the existing website. Participants were able to complete tasks efficiently, and overall satisfaction levels were high. The testing also identified a few areas for enhancement, particularly in navigation visibility and content prominence. Implementing the suggested improvements will further strengthen the usability and effectiveness of the portal.
